---

SAN FRANCISCO, July 11, 2013 /PRNewswire/ -- Visitors to the InterSolar North America exhibition at the Moscone Center in San Francisco can view ReneSola's Zep Compatible module on display at the ReneSola booth, #7321. This module is now available for shipping from one of ReneSola's eight US warehouses.

Zep Solar's technical team is also on hand leading demos of the Zep Solar technology platform at ReneSola's booth.

"I am very pleased to see the results of our collaboration with Zep Solar, which has helped in developing the use of this new, innovative technology," states Kevin Chen, president of ReneSola America. Daniel Flanigan, executive vice president of Zep Solar, is also pleased to be working with ReneSola: "ReneSola's industry-leading adoption of the Zep Compatible installation platform will provide proven labor-saving benefits to its customers."

InterSolar North America 2013 is not the only place to catch a glimpse of the revolutionary product. ReneSola's Zep Compatible modules will also be featured in the upcoming CED Greentech dealer roadshow, touring Northern California July 23-25.

### About ReneSola

Founded in 2005, ReneSola (NYSE:SOL) is a leading global manufacturer of high-efficiency solar PV modules and wafers. Leveraging its proprietary technologies, economies of scale and technical expertise, ReneSola uses in-house virgin polysilicon and a vertically integrated business model to provide customers with high-quality, cost-competitive products. ReneSola solar modules have scored top PVUSA Test Conditions (PTC) ratings with high annual kilowatt-hour output, according to the California Energy Commission (CEC). ReneSola solar PV modules can be found in projects ranging in size from a few kilowatts to multi-megawatts in markets around the world, including the United States, Germany, Italy, Belgium, China, Greece, Spain and Australia. For more information, please visit [www.renesola.com](http://www.renesola.com).

### About Zep Solar

Zep Solar, Inc. was founded in 2009 by PV industry veterans to advance the proliferation of solar energy through well designed PV mounting and grounding products. Zep Solar licenses its patented Zep Groove technology to a growing list of top-tier PV module and power electronics manufacturers and manufactures its own line of complementary mounting and grounding hardware – offering the world's first comprehensive platform for PV system installation. The Zep Compatible platform drastically reduces the cost and complexity of designing, shipping, warehousing, and installing PV systems.

### Safe Harbor Statement

This press release contains statements that constitute "forward-looking" statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and as defined in the U.S. Private Securities Litigation Reform Act of 1995. Whenever you read a statement that is not simply a statement of historical fact (such as when the Company describes what it "believes," "expects" or "anticipates" will occur, what "will" or "could" happen, and other similar statements), you must remember that the Company's expectations may not be correct, even though it believes that they are reasonable. The Company does not guarantee that the forward-looking statements will happen as described or that they will happen at all. Further information regarding risks and uncertainties that could cause actual results to differ materially from those in the forward-looking statements is included in the Company's filings with the U.S. Securities and Exchange Commission, including the Company's annual report on Form 20-F. The Company undertakes no obligation, beyond that required by law, to update any forward-looking statement to reflect events or circumstances after the date on which the statement is made, even though the Company's situation may change in the future.
