

Yingli Green Energy Hosts Annual Global Investor Day

Written by Robert Dydo

Wednesday, 12 September 2012 05:20

Yingli Green Energy Hold. Co. Ltd. (ADR)(NYSE:YGE) hosted its annual conference in Orlando, Florida on Sept. 12, 2012. During the conference the representatives of Yingli Green Energy' management team delivered presentations on a range of subjects:

"An Industry at the Crossroads"

Mr. Bryan Li, Executive Director and Chief Financial Officer of Yingli Green Energy

"Technology Innovations----Key to Open the Future"

Dr. Dengyuan Song, Chief Technology Officer of Yingli Green Energy

"Market Update: Europe & the Americas"

Mr. Robert Petrina, Managing Director of Yingli Green Energy Americas

SPVI reported yesterday China's target of 40GW for 2015, today the presentation, which is available [here](#), confirms this target.

In the aftermath of news released by **Trina Solar Limited (ADR) (NYSE:TSL)** yesterday, industry sources reported speculation about the job cuts being as high as 6,000 from current levels of 15,000 employees globally. The company has also possible plan of one month complete shutdown of operations, in order to reduce inventory and save on expenses.
